

Twelve-year-old Boy Perished in an Abandoned Mine Shaft.

Special to The Journal.

Houghton, Mich., July 13.—Searching parties are unable so far to find the body of 12-year-old Frank Pakling of Hurontown, who was drowned on Friday while trying to rescue his dog from an abandoned mine shaft. Attempts made today to raise the body with dynamite failed. It is believed the body lies at the bottom of the old slope several hundred feet below the surface.

1909 July Twelve year old killed in shaft fall
