

## Killed in Abandoned Mine.

Arthur Parker, age 16, and Vincent Bullington, age 14, met with death in an abandoned mine near Newtonville, Spencer county, last week Monday. The youngsters were found late in the evening by Edward E. Parker, father of the former, at a depth of 22 feet in the shaft. Before he could drag the boys out he realized that he was being overcome by gas. He at once cried out in horror, which was heard by a nearby neighbor, who came to his rescue just in time. By lowering a rope into the shaft, Mr. Parker was saved.

Evidently, the boys had gone down the shaft to explore the mine, where they suffered a horrible death by being overcome by gas.
