

3 Men Found Dead In Abandoned Mine

PIKEVILLE, Ky., April 1—Three Pikeville, Ky., men were found dead in an abandoned mine, apparently victims of carbon monoxide poisoning. A still was also found in the mine.

Everett Brown, an inspector for the Kentucky Department of Mines and Minerals, said the men became trapped when the entrance to the mine, which hadn't been worked in almost 30 years, caved in. The victims were Millard Price, 23, Donald Ratliff, 50, and Ervin Bowens, 45.
