

## Swimmer Drowns In Quarry Near Massillon

MASSILLON, O. — Sixteen-year-old Johnny Nussbaum of North Lawrence drowned last night in a quarry at the Massillon Refractories, just west of East Greenville in Stark county.

The State Highway Patrol reported that Nussbaum, three girls and the father of one of the girls went for a swim in the quarry about 9:30 p. m.

Officers said the swimmers told them that Nussbaum's disappearance was not noticed for some time. The swimmers called the Massillon and Dalton fire departments, Stark county sheriff's deputies and the patrol when it was discovered the boy was missing.

The four agencies joined in the search and Nussbaum's body was recovered at 11:25 p. m.
