

## CORONER INVESTIGATING.

### Three Bodies Taken From the Ocean Mine This Morning.

CLARKSBURG, W. VA., May 8.—[Special]—The body of Joseph Feathers was recovered from the Ocean mine last night, when the search was again abandoned until early this morning, when, the mine being sufficiently cool, it was resumed, and the bodies of Gaines and Dougherty were brought out.

All the bodies presented a sickening sight, Feathers being burned until unrecognizable, being identified by the locality in which he was discovered. Gaines was burned the same as Welch, who was recovered yesterday, and Dougherty being disemboweled by falling coal or flying timbers.

Coroner Lyon has taken charge of the case, and an inquest will be held immediately.
