

## **NO BODIES RECOVERED FROM THE TERCIO MINE**

Trinidad, Colo., Oct. 30.—No bodies have yet been taken out of the Tercio mine, where an explosion entombed 49 miners Friday, according to a statement of the coroner, who returned from Tercio to-night. A miner was lowered down an airshaft by a rope and identified three bodies, but they were not removed. So great was the explosion that huge boulders block the passage of the rescuers and make blasting necessary. These blasts cause further rock slides.
