

Another Explosion at Zeigler

Benton, Ill., Feb. 10.—Another explosion occurred in Joe Leiter's mine at Zeigler on Tuesday, killing three men. One of the victims was Mine Examiner Kimball. There were 11 men in the mine when the fatal explosion occurred.

A few days ago the state mine inspectors again permitted the mine to be opened. These 11 men were getting ready to remove seven bodies that still remained in the mine from the explosion of a month ago.

This is the mine of which John McVicker, formerly of this city, is superintendent.
