

MINER IS RESCUED

SHAMOKIN, March 13.—Rescuers penetrated a breast at the Hickory Ridge Mine this afternoon and recovered the body of John Mrowka, a miner, who had been entombed since yesterday with Paul Poplaski, his partner. Poplaski was brought to the surface earlier in the day in a dying condition.

The men had been imprisoned in a gangway by the roof collapsing.

1914 John Mrowka rescued at Hickory Ridge mine
