

## MINER PINIONED UNDER HUGE ROCK

COMPANIONS CARRY WOUNDED  
MAN OVER STEEP GRADE.

CHICO, August 24—Five men worked strenuously yesterday to move a huge boulder that had rolled ten feet down the side of an embankment in a little canyon a mile from Camp One and pinioned C. F. Seward, a miner, in a shallow stream, crushing his left leg.

At the end of the two hours, when the rock finally had been moved, the five men carried Seward a mile out of the canyon over an almost impassible trail to Camp One.

Probably their efforts have saved Seward's leg for him. From Camp One the injured man was rushed to Ninsbew. Dr. P. L. Hamilton went to his assistance there last night. Seward will be taken to Chico and placed in the Sacramento Valley hospital today.

Seward was at work at a little mine in the canyon near Camp One. Suddenly the rock toppled from its resting place a few feet above and crashed down the embankment.

It struck Seward low, knocking him down and holding him in a nearby shallow stream of water.

The left leg was crushed from the knee to the ankle. Dr. Hamilton does not believe amputation will be necessary.

1915 CA miner trapped under boulder rescued after 2 hrs
