

3. TRAPPED IN FLOODED MINE FOR 50 HOURS, ARE RESCUED

HOUGHTON, MICH., February 2.—
After more than fifty hours' imprisonment, three miners were found alive tonight in the flooded Isle Royale mine, near here. Owing to the weakness of the men they will not be moved through the water to safety until tomorrow. They had no knowledge of the fate of the two other men, also entrapped and still missing.

The Isle Royale mine was flooded when a blast broke through the drift wall into an adjoining abandoned working.
