

MINERS KILLED OR ENTOMBED

Four Bodies Recovered From Works at Layman, Ky.

PINEVILLE, Ky., Jan. 30.—A mine explosion tonight killed four persons and may have killed or entombed many others at Layman, twenty miles from here. An explosion occurred in the mine of the Layman-Galloway mines shortly after 9 o'clock. Four bodies have been recovered.

The only report officials of the mine have been able to get, because of poor telephonic communication, is that four were dead and that the rescue party was penetrating slowly into the mine. Special rescue equipment has been asked for and is expected to arrive here early tomorrow.
