

## RESCUED MINER DIES

### Two Entombed by Fall of Coal Found by Searchers

*Special to The Inquirer.*

POTTSVILLE, Dec. 13.—Although he was rescued alive today, after being entombed under a fall of coal, Edward Haughney, of Glen Carbon, died half an hour after he had been released by fellow-miners.

It was believed the reaction after the terrible strain caused Haughney's death as much as any injuries. All precautions failed to save Haughney. Richard Pippsett, a miner, entombed with Haughney, was rescued with slight injuries. The accident occurred at Thomaston colliery.
