

Miner Buried Under Slide 10 Hours, Saved

Bessemer, Mich., Aug 10—After being buried under a slide of earth and rock for nearly ten hours, Suvie Guianni, 34 years old, was rescued from the Tilden mines here. He had been trapped by a cavein while attempting to reach Adolph Stencer, crushed to death in an earlier slide.

He and other miners were engaged in removing the fallen earth from Stencer's body when the second slide occurred. All but Guianni jumped in time to escape. Guianni was able to direct rescue work in his behalf.

Stencer's body was recovered after Guianni's release.

1925 Suvie Guianni rescued after 10 hours in mine
