

Miner Buried Hour And 20 Minutes is Saved by Comrades

Buried alive for an hour and 20 minutes, a Shickshinny miner was rescued by fellow workmen yesterday morning. He suffered only slight bruises of the right arm and body.

The miner, Silver Mieczalowski, 28, was trapped in a slide of coal at the West End Coal Company, Mocanaqua, at 10 a. m. He was completely covered, but loose debris around his head allowed him to breathe until rescued.
