First Pictures of the Disaster at the Castle Gate Mine in Utah in Which 173 Are Believed to Have Lost Lives

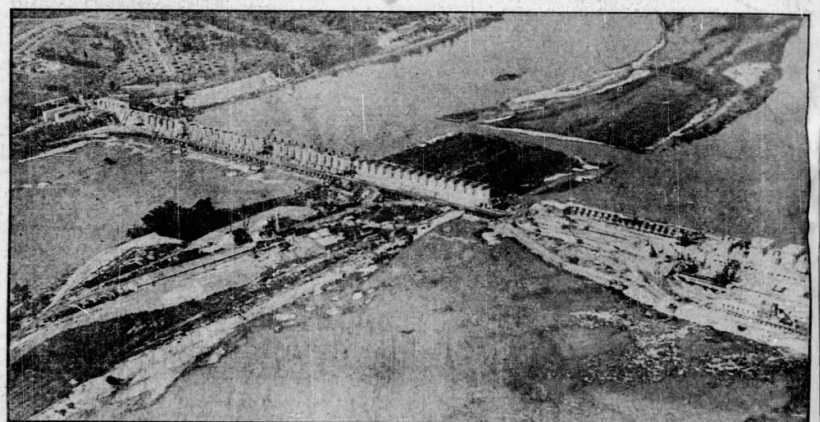

ONE HUNDRED AND FIFTEEN BODIES REMOVED FROM WRECKED CASTLE GATE, UTAH, MINE. The picture shows the crowds of rescue workers digging in the main portal of Mine No. 2. The entrance had been blocked by the explosions which occurred Saturday, burying 173 men in the mine. (Copyright: Pacific and Atlantic.) (Story on page nineteen.)

CRACK HIAWATHA MINE RESCUE TEAM RESTING AFTER WORKING FOR EIGHT HOURS IN TUNNEL. These men were the leaders in the rescue work. Great precautions had to be taken to keep them from becoming exhausted while at work, but they remained in the mine for eight hours at a time in a vain effort to save lives. (Copyright: Pacific and Atlantic.) (Story on page nineteen.)

A CLOSEUP VIEW OF THE ENTRANCE TO THE CASTLE GATE MINE. This picture was taken after the earth that caved in when the explosions occurred had been removed and the first rescue parties had entered to fight the fire that was raging. (Copyright: Pacific and Atlantic.) (Story on page nineteen.)

GOVERNMENT PROPERTY AT MUSCLE SHOALS VALUED AT \$4,000,000 WHICH HOUSE OF REPRESENTATIVES VOTED FORD. This striking aerial view shows the immensity of the power development which the lower house offered Ford at his own terms. To the right of the development is the power plant and at the other end of the Wilson dam is the skeleton of the navigation canal which will allow ships to pass around the dam.
