

# **Men Trapped in Mine Fire Are Rescued**

WHITWELL, Tenn. (AP)—Six coal miners were rescued Thursday night after being trapped by fire in Grays Creek No. 11 mechanized mine, officers reported.

The miners were brought out "safe and sound," the Highway Patrol said. No other reports were immediately available from the isolated area. Highway Patrol and ambulance units were dispatched from Chattanooga.

The mine, operated by Grundy Mining Co., is the only mechanized mine in the southeast Tennessee coal fields.
