gering Lives and Causing Greatest
Property Loss in Many Years.**

Special to The Courier.

BROAD FORD, Aug. 20.—Buildings washed away and property loss totaling thousands of dollars resulted here yesterday afternoon in the most terrific rainstorm in recent years. A number of families, caught on the second floors of their homes by the flood, had to be carried out.

Two miners, Jesse Addis and a Slav, caught in the White mine of the H. G. Frick Coke Company, were rescued with great difficulty. Their lamps had been extinguished. The rescue party, led by Superintendent John Shields, waded into the mine and finally reached the two men. Other employes, who received warning of the oncoming water, escaped before the mine was flooded. The damage to the workings has not been definitely determined.
