

## MAN LOST IN COAL MINE FOUND TODAY

Pomeroy, Oct. 7.—After walking through the abandoned recesses of an old coal mine without light for two days and a night, Jack Gobel was found by a searching party last night.

Gobel was lost while leaving his work, by going through this part of the mine Thursday afternoon. A jar from a dynamite explosion put out the light upon his miner's cap. He had with him neither a lighter nor matches.

The searching party was formed after his wife notified mine officials last night.
